

POLICE MAY CENSOR HOME 'BEER PARTIES'

"Normal" Amount to Be Fixed by Liquor Men Fighting "Speakeasies"

Police censorship of "private" home parties, where "abnormal" amounts of beer are consumed, is included in a drastic scheme proposed by the Retail Liquor Dealers Association to curb the sale of liquor to soldiers, sailors and marines.

From one to two cases of beer a week is suggested tentatively as the normal for the average establishment.

Police regulation of the amounts to be sold any one, and investigation of any orders over a normal amount, are part of the liquor men's program. The entire matter of regulation of the retail liquor business to thwart "bootleggers" and proprietors of "speakeasies" and illegal clubs, will be threshed out tomorrow, when the liquor men meet in the Forrest Theatre.

The plan now being considered is to look over records and keep records of persons who ordinarily purchase one case of beer a week, and when an order in excess of this is received by a dealer the purchaser will be forced to make application to the police for a permit to purchase the amount. It is understood a resolution to this effect will be introduced at the meeting tomorrow.

DOPE VENDERS EMPLOY BOYS TO SELL WARES

Scheme to Obtain Court's Sympathy Revealed at Youthful Offender's Trial

Driven to cover by the rigid enforcement of the Harrison antinarcotic drug law, dealers in this city and its vicinity, are employing youths of sixteen and eighteen, to continue their business. The theory is that if the boys are caught they will be dealt with leniently by the court because of their age. This revelation was made today by Edward S. Kremp, Assistant United States District Attorney, to Judge Thompson, when Solomon Miller, eighteen, was called for sentence for selling "dope" in the Tenderloin. Judge Thompson reiterated his determination to deal severely with dope peddlers. He sentenced Miller to a year and a day in the penitentiary at Atlanta.

WAR SAVINGS PLEDGES TO OPEN DRIVE SUNDAY

Church Appeal Will Start Week's Aftermath of Liberty Loan Campaign

Elaborate arrangements for a concentrated drive during Pledge Week for the war savings campaign are being completed today by the committee, according to Norman MacLeod, in charge of publicity. The drive will open on Sunday, May 12, with appeals from the pulpits of all churches in the city.

The booths used for the Liberty Loan campaign will be impressed into service, he says. The theatres and moving-picture houses in all sections of the city will be "covered" by members of the women's Liberty Loan committee. The entire organization used by the women in the Liberty Loan campaign will be turned over to this work, according to Mr. MacLeod. In addition to the work they did in the bond drive, they will take care of all the activities handled by the men.

Entertainments and "stunts" to draw crowds will be held at the Liberty Loan statue each day. The amusements on the north plaza of City Hall will be continued for the week of the drive also. There will be the same corps of speakers from the speakers' bureau in the Finance Building campaigning.

The country has subscribed only about 10 per cent of the war savings quota, according to Mr. MacLeod. This city has put about this same amount into the campaign. Pledge Week is designed to put the war savings efforts "over the top," or as close to it as possible. Every one will be asked to agree to buy a designated number of stamps each month for the duration of the year.

The woman who thus recently admitted her need of optical assistance in that one sentence described the plight of many others of advancing years—people whose eyes are "not as good as they used to be."

"Farsightedness" from age is generally an easily remedied condition, but like all other eye troubles, it should be corrected just as soon as it becomes noticeable.

He held the post of chief surgeon of the Police and Fire Bureaus more than fifteen years. He gave up his private practice more than three years ago and had not been active in the Police and Fire Bureaus for more than twenty years.

Doctor Andrews is survived by a widow, who was Miss Emma T. Dixon, and two sons, T. Hollingsworth Andrews, Jr., and J. Dixon Andrews.

MUST "CUT" SWEETS TO CONSERVE SUGAR

Cooke Warns Women They Cannot Be Slender and Graceful Otherwise

Stringent rulings in regard to the sale and use of sugar after the canning season were predicted today by Jay Cooke, food administrator for Philadelphia.

The sugar situation is not encouraging at present, Mr. Cooke said. He suggested voluntary self-denial in using sugar and all food containing sugar.

The recent sugar ruling, which requires all persons buying large quantities for manufacturing to obtain sugar certificates from the food administration after May 12, was made in the interest of the housewife and canner, that they may put up a large supply of fruits and vegetables this summer.

There are hundreds of thousands of

children and young people of both sexes in Philadelphia who can display their patriotism only by acts of self-denial," Mr. Cooke said. "I suggest they display their devotion to their country by cutting down on their allowance of candy, chocolate sundae, bonbons and the various other luxuries manufactured almost wholly from sugar."

"By the young ladies particularly my appeal should be received gladly. Nearly every girl is desirous of having a slender, sylphlike form and graceful carriage; sugar tends to fatten, therefore, the less sugar they eat the more slender and graceful will they become. Besides, they are conserving food elements for our allies and helping to fight the Hun here at home."

"There is no scarcity in Philadelphia with regard to milk, as has been described in Baltimore. From all reports at hand our people have an abundance of milk."

SOLDIERS IN FRANCE NOT TO CAST BALLOTS

War Department Believes Voting Would Interfere With Military Efficiency

Washington, May 8.—American soldiers in France will not be permitted to vote in the coming elections, the War Department has definitely decided. Men in training in this country will be allowed to vote if their States wish to collect the ballots.

In letters to Representative Rogers (Mass.), Assistant Secretary of War Benedict Crowell and Adjutant General McCann said the vote in France could not be taken without seriously interfering with military efficiency.

"The matter has been thoroughly canvassed upon the ground in France in the light of the effort made to collect the soldier vote in the fall of 1917," Crowell wrote. "These men are entitled to have a voice in the affairs of the country, of course. But I also believe they would be the last ones to insist upon exercising the franchise, because I am certain they must clearly see such a course constitutes an impediment to military efficiency."
